

## Home Technologies @ Hotel Indigo

ACCESS HT has been busy smart-wiring 12 condos at Hotel Indigo in downtown Asheville!

Technologies in these condos (for sale at approximately \$1 million each) include distributed audio, a home theater, and automated blind control for all of the windows. All of these technologies are wired to be integrated into home automation systems as well. We want to make sure that future homeowners can have whatever technologies they want when they move in!

Check out more pictures of the project on our facebook page , and become a fan of our site! You can also check out more information on Hotel Indigo , in downtown Asheville.
